Department of Electronic Science

Extension activities of Department:

The department of electronic science actively organised and participated in the extension activities. The students of the electronic science department participated in the INNOFEST-2023 held at MGV's L.V.H. College on April 24, 2023. The INNOFEST-2023 is based on the development of the innovation concept as well as research hypotheses in the pupils or scholars.

The students of the electronic science department, Mr. Jadhav and Shewale, presented the developed "potentiometric system for biomedical applications" in the INNOFEST.

Innovation and incubation Centre

The innovation and incubation centre of the college has always motivated the students to develop their research interests and their paths in the field of innovation and research. Under the innovation and incubation centre of the college, various activities are carried out; among them, one of the best practices was carried out by staff and students of the electronic science department. The staff and students of the electronic science department have developed a **"potentiometric system for biomedical applications."** This is a very novel system for biosensing applications in the fields of nanoscience and nanotechnology.

Developed **"potentiometric system for bio medical applications"** system photo:

Department of Electronic Science

Experiential learning is also one of the most important aspects of any education system. For the enhancement of students' skills and their experiential learning abilities, the department of electronic science organised field visits as well as study tours for students.

The students are visited to pathology lab

Mr. Sachin Gambire explained the working of instruments to the students.

Department of Electronic Science

The teaching staff of the electronic science department is actively participating and doing collaborative work with other colleges or higher educational institutes. The staff of the electronic science department is invited as a resource person at many colleges as an expert speaker or as a resource person.

Aim :-

Study of tools of Taxonomy & ecological inistiu

field tools for cottection & documentation.

- plant Taxonomy is a sciencien that incides idenitification nomenclature & classifn of plants.
- collection of plant material from it's natural habitat is primary step to commence taxonomical study.
- study of plant & their further utillzation are the main purposes of collection.
- During collections locality. habit. & morophology. scientific & local name.

Secateur :-

- It is quite simple & handy cutting instrument of abaut 15.20 cm long facilicated with lacking system.
- The blader is made up of steel or, iron, 6.9 cm long, starright or carving inward.

uses :- It is used it cud small, hard & woody twigs of shrubs & trees.

Vasculum :-

- It is a light metal container made up of tin or aluminum.
- It is provided with a lid which opens upward.

- It has a handle & two rings for inserting strap

Uses :- It is used to keep collection plant material during collection to avoid durying.

c) field press

- It consists of a part of wooden or metal frams which are liten togther by leather strap / strong rope / velcro.
- The standard size of field press is 12 inches × 18 inches
- The plant specimens to be pressed are arranged with in flolder sheets of old news paper or blotting papers which are then press formis & field together tightly.

Uses :- It is used for pressing plant material in field for good herbirium preperation.

d) Herbiarium sheet :-

- Taxonomiers pressure plant speciem in dry stat by mounting it on a thick sheet of paper 42x29 cm size. such o mounted sheet is called herbaiums
- The place (labartor (Institute) where herbarium sheet are a sytematically is called herbaium.

B Study of Ecological instrument :-

1) Measurement of Soil temperature.

Soil temp is measured by a special type of a therument called soil therometer.

a) Construction & working:

- Soil thermometter has a vertical aim with bulb at one end covered by metal from.
- The thermometer has an outer covering of Wooden frame.
- The bulb of thermometter conating mecury is proted by metal grid which has a shap end below. It is burried of diffn depths i.e 1". 6". 12", 18" etc of the soil.
- The temp in °C of the various depths con recorded
- With the help of this instrument one can record the (various) variations in the temp of various.

2) Measurement of Atmospheric air temp

The ecological instrument called maximum - minimum thermometter is used for recording the atomspheric temp.

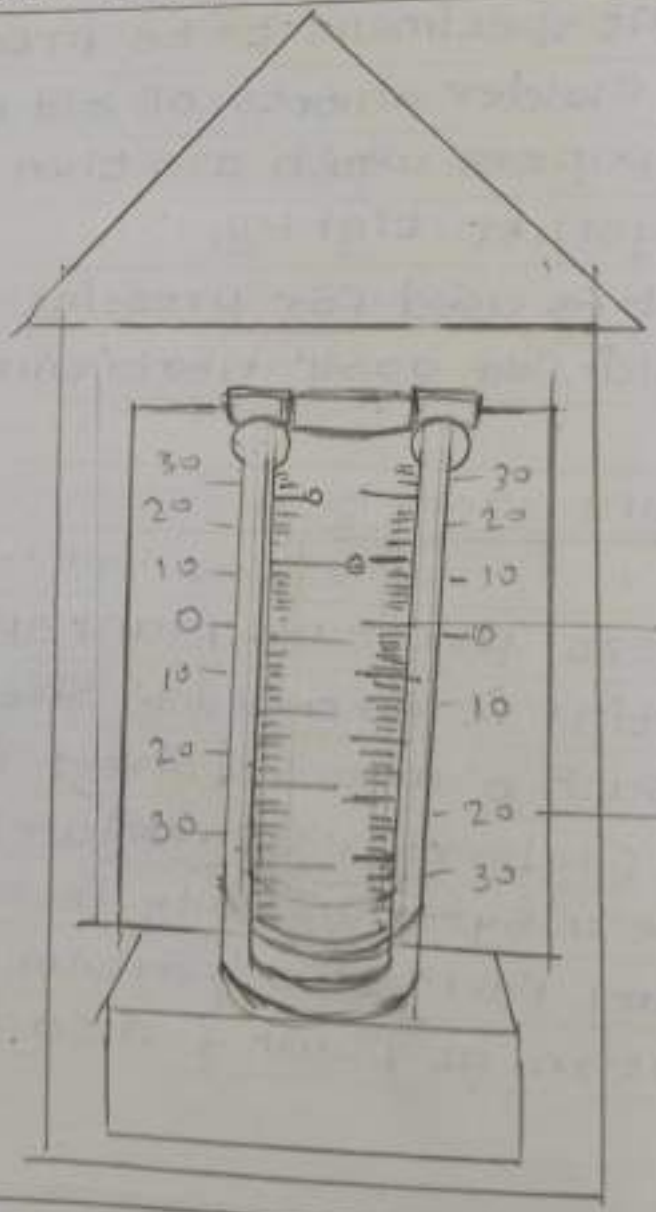

Maxium & minimum thermometer.

a. Construction & Working :-

- It consists of 'U' shaped thermomether containing of column of mercury with an expansion bulb (fiel filled with fluid of the end of one arm.
- iron pins are located one in each arm above the mercury colum These iron pins are placted in th tube in such a way that they will not slip down on their own.
- The iron pins is left where it was pushed, to indicate maximum temp.
- When the temp lowers. the liquid in the bulbs contract & mercury now begins to rise in this aim & fall in the other aim.
- The iron pins are then brought back to the of the mercury column by using mognet.

3 Mesurement of Wind (velocity)

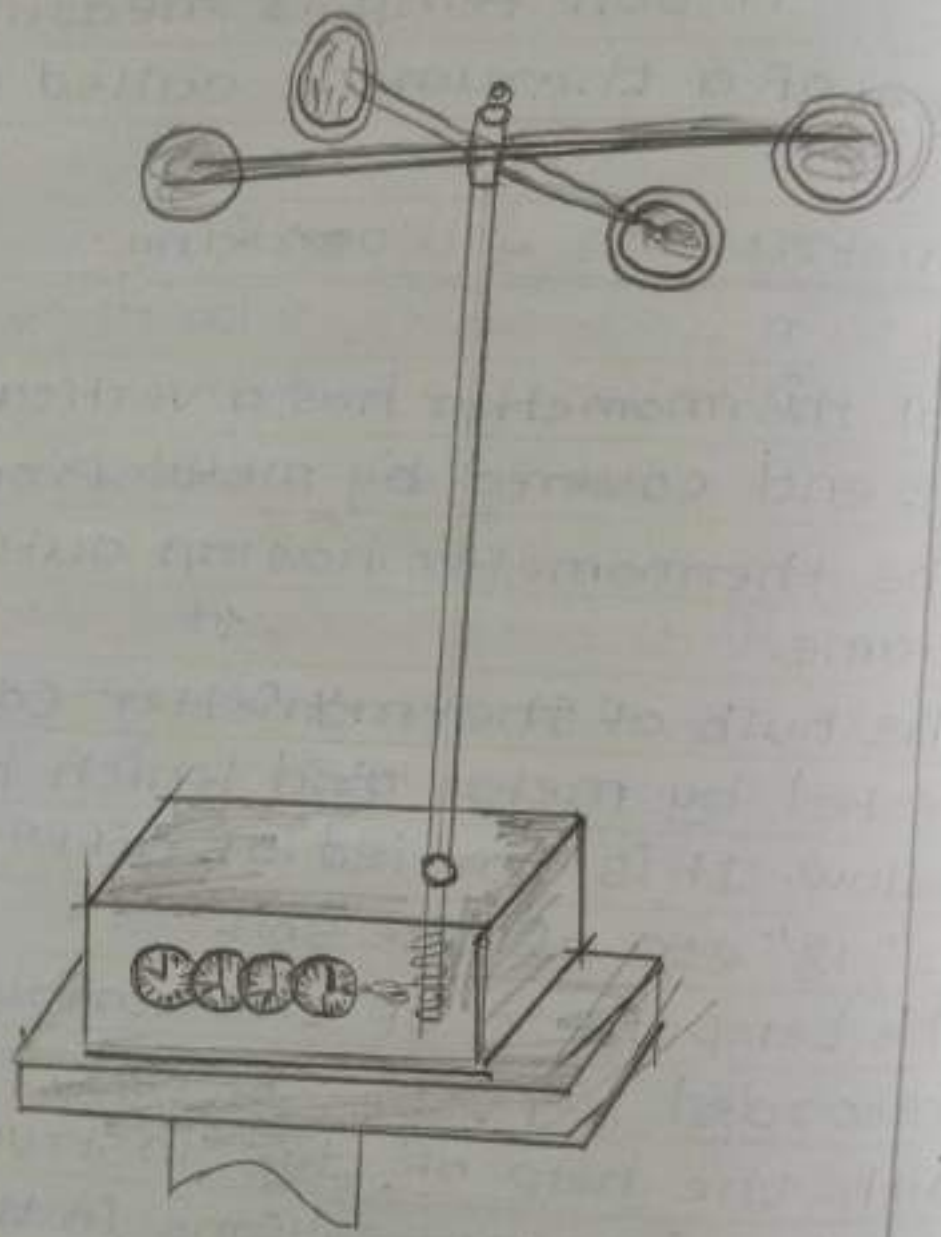

Principle :- Wind velocity is usually expressed in the tems of mirest hour or Kilometer / hour. The instrument which is used to record Wind velocity is called cup onemoment

- Construction & Working

- The cup onemometal consists of three spherical cups which are fixed to a motoar mouted on a spindle. They are free to rotate at speed proportionate

to the velocity of wind.
- The revolution is counted by the countre unit which is fixed to cup anemometer.
- initial & final reding in 2 min. are noted. The diff^n in a redings denoted wind velocity in km/h
- It is used for measurement of wind velocity.

4 Hair hygrometer

◦ Construction

- The instrument is ued for measuring relative humidity in a obtaining a Continous record.
- The instrument is in the from circulat disc showing scale (in perentage) up to 100.
- proteins are sensetive to atmosperic humidity.
- pointer is fixed to it which moves an a scale.

◦ Working

In humid weather, the hair being hydroscopic lingthem white in the dry weather, it Contracts. the lengthening & shartening of hairs speak for the relative humidity indicated by the movement of point an the scale.

Aim :- Demostration of following.

1) Commerial biofertilizers : ex - Rhizobium

- Nitrogen fixing bacetria are prokaryotic micro-organism that are capable of transtarming nitrogen gas from the atmospere. there into fixed nitrogen (nitrate) (compound). such a ammonia that the ustable by plant.
- Rhizobium is biological fertilizer based on silenc-ted starin of naturally occuring benefical biofertilizer are substutn that containes micro-organism each when applied to this soil increase the nutenit content.

2) Nitrogen fixing Bacteria :- ex BGA (Blue green algae)

Two kinds of nitrogen fixing bacteria are recognic

i) free living bacteria:- includes, cynobacteria
ex: Nostoc.

ii) Many rhizospheric bacterial strain posses plant growth promoting mechanisms.

iii) These are bacteria can be applied as biofertilizin in agrfcuture foresty, enchaning, crop yieding.

iv) bacterial biofertizets can imporve plant growth through serval different methanisms.

- Pour water bottle & put a few seeds upto water surface.
- Adjust the disc just over the seeds & this pointer overt zero mark on the scale.
- Allow the experiment to remain as such overnight.

5) **Spectaphotometer:**

- A spectaphotometer is an instutement that measures the amound of light absorbed by solut- it passes through sample soln
- Every chemical compound absorbs, transmits or refetcts light into cretain range of water length.
- The principle of this intrument is based on Beer's & lambert's law which stastes that amount of light absorbed by the subst'n & path length at night passing through the soln

- on the basis of this law spectrophotometer works the measurement concentration of solute present in the soil?
- Depending on the range of wavelength of light sources it can be classified into two diffn types 1) visible spectrophotometer
  2) UV spectrophotometer.

5) Ringing Experiment:

- The experiment involves the removal of all the tissue outside vascular cambium in woody stems except xylem. xylem is the many remaining tissue the grided area which conflects upper & lower part of the plant.
- The setup is placed in a beaked of water.
- After some time. it is observed that the swelling on the upper part of the ring apperns as the result of the accumulation food mater
- If the experiment continious within days. roots die first
- It is because supply of food material to the roots is cut removel of phoem.
- As the roots gradually die upper part. which depends on root for the of sap, will utimately die.

:- Introduction :-

Every one has A right to orurat comprehensive and up-to-date Information on the air thay breathe This booklate is desigend to be an Air pollution Information service and to air poliution and health explain what the service is & tell you.

How to use the service.

The goverment and the devoled administration, Air pollution inform tion. service is maneged by the Department for Environment, Food and rural Affairs (DEFRA) It provide detailed and easy to understant on Air Popollut completly Free to change. me dical condition which air Pollution.

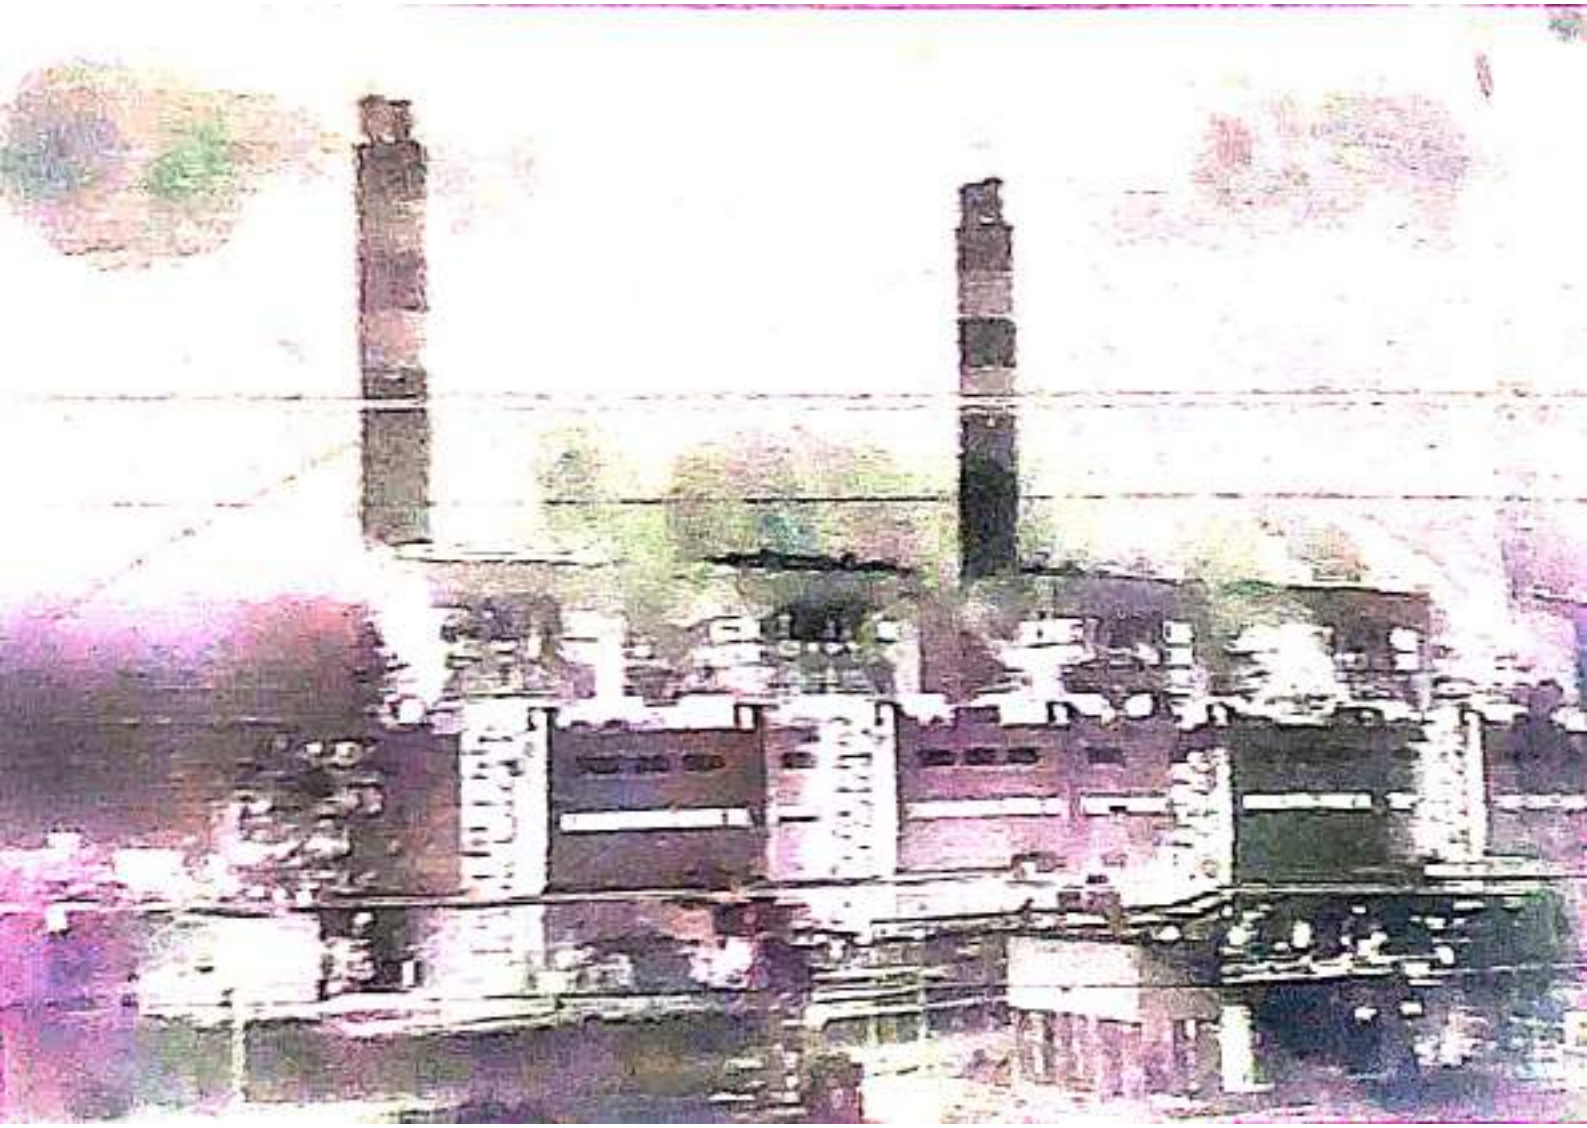

Q. How does the air pollution banding system work:- ➤

The system is a way of telling people of the daily change in air pollution. It is especially helpful to those affected by air pollution, as it can help them adjust their medication or activities for the day. The system use a numerical index grouped into four bands to describe levels of air pollution the bands or Level, are 1- 3 (low) 4- 6 (moderate) 7- 9 (high) and 10 (very high).

The air pollution Level reported in the Forecasts and summaries is the highest for any single pollutant

For example:- if all but one of the pollutants in a region or city where,

1- 3 (low), with just a singie Pollutants resistering 7 (high), the summry would descibe air pollutio as 7 (high), in the UK, very high level of air pollution.

2. How might air pollution Effect :-

IF your helth is good, the level of air pollution we usally expreince in the UK are unlikelly to hove any serious short-them effects. But on the rore occasions when air pollution levels are high some people may Feel eye irritation, others may short to cough, and some may finde that breathing deeply hurts.

Pepole with lung diesase or heart condition are at grder risk especially if they are elderly. Daily change in air pollution trigger in cresed admission to hospital. and contribute to the perniture

death of those are seriously ill.

The table below describes how the heath of people who are sensitive to air pollutants might be effected by pollution at the different levels or bonds.

people with heart condition or severe lung diesase (For ex. cronicbronchitis or emphysemo) might be more sensitivie to change in air pollution that the diśribtion suggest.

The change from bond to bond are not sudden step. the effe of air not sudden increase grodually as air Pollution level rise. it is importants to look at the levels and bonds in the lights of personl exprincence. some people. espesily those. whow are sensitive to air pollution affects them. some may still from exprieance how air pollution.

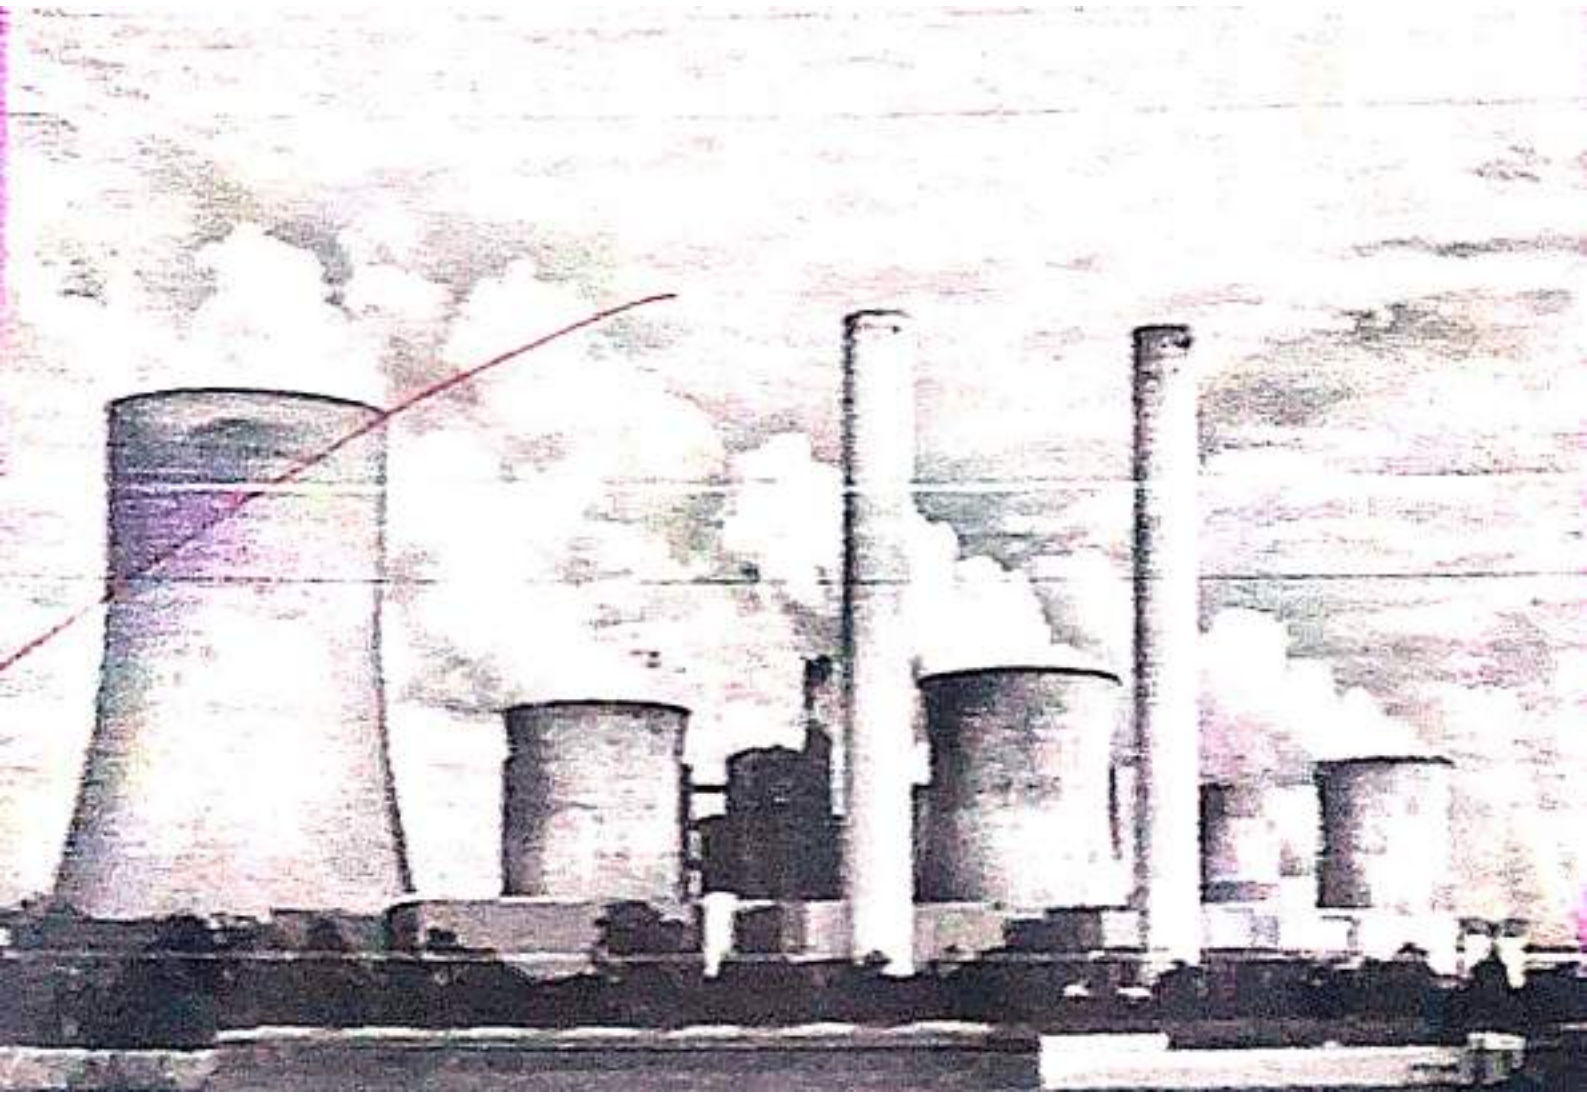

Smoking

Smoking is likely to have a much more serious effects on your health than air pollution giving up smoking will reduce your risk of lung and heart diesase considerably it will also make you less vulnerable to the short-term effect of air pollution.

In Winter

- If traffic fumes make breathing harder, avoid busy streets as much as you can.
- If you are elderly, stay indoors as much as possible and keep warm.
- If you child has asthma, they should be still be able to take part in game.

On The Road

Road vehicles are a major source of may pollutants in urban areas They produce over 50 percent of the emission of nitrogen oxides and over 75 percent of carbon monoxide emission in the UK.

The Goverment and developed administration have introduced wide range of measure, which have substanilly cut harm full emission form road vehicles and encorage people to use cleaner Fuels and vehicles. But everyone can do thair bit to reduce air pollution especially when pollution.

The Air quality Strotegy for England, Scotland Wales & Northern Ireland set the framework for local action reduce pollution. local othorities monitor and asses. air quality & prepare action plans where they identify.

Q.1| Attempt All of the following MCQs. **|05X1=05|**

1) A thyristor (SCR) is a
a) P-N-P-N device b) P-N-P device
c) N-P-N device d) P-N device

2) Which terminal does not belong to the SCR?
a) Base b) Gate
c) Anode d) Cathode

3) This set of Power Electronics Multiple Choice Questions & Answers (MCQs) focuses on "Cycloconverters".
a) one stage frequency converter b) one stage power converter
c) one stage voltage converter d) none of the mentioned

4) The single phase mid-point type cycloconverter uses _____ number of SCRs.
a) 4 b) 8
c) 6 d) none of the mentioned

5) For the same power output rating and full-load speed, the motor that will have poorest starting torque, is
a) Differential compound b) cumulative compound.
(c) Series. (d) Shunt

Question No.	1	2	3	4	5
Answer	a	a	a	a	b

Q.2] Attempt All of the following True or False statement. **|05X1=05|**

1) For speed control of DC shunt motors using controlled rectifiers, armature voltage control ---False---

2) A Lithium-ion (Li-ion) battery is a type of rechargeable battery used in electric vehicles.---True---

3) In Dielectric Heating Circuit Diagram. The system is included with two metal plates also called as electrodes.---True---

4) dielectric loss is used for heating a dielectric material in the altering electric field.---False---

5) Panasonic is the sole maker of the more advanced Tesla battery ---True---

Q.3| Attempt any Five of the following questions. **|05X1=05|**

1) What is a TRIAC used for?

The term TRIAC stands for triode for alternating current. As suggested by its name the electronic components is commonly used as a control element in a alternating current

2. Write short note on - Android kernel

A switched - mode power supply is an electronic power supply that incorporates a switching regulator to convert electrical power efficiently.

3. What is the principle of dielectric heating?

Dielectric heating works on principle of dielectric loss. A varying electric field is the cause energy which is to be dissipated molecules moved in line with varying electric motion.

4. What does full bridge AMP mean?

It is, generate more power from a given rail voltage. In addition, a full bridge design minimize problems with low impedance

5. Can a Class D amp be bridged?

with a single speaker, dual mono list going to work often class amp can be bridged depends on circuit topology.

1. List Types of PCB

(1) Single Layer PCB. Single layer printed circuit boards are among some of the simplest to design and manufacture (2) Double Layer PCB (3) Multi-Layer PCB (4) High Density Interconnect (HDI) PCB (5) High Frequency PCB.

2. Write note on- Tools for PCB Design.

PCB is an acronym for printed circuit board. It is a board that has lines and pads that connect various pt together th the p

3. Explain PCB Technology.

A printed circuit board or printed wiring board is a laminated sandwich structure of conductive and insulating layers. PCBs have two complementary functions. The first is to affix electronic components in designated locations of the outer layers by means of soldering.

4. What are the advantageous of Tetra Functional FR-4 over Copper material.

5. Explain PCB Design Concepts.

Printed circuit board design begins with the creation of a conceptual block diagram. This block diagram is converted into a schematic design using a CAD software. A schematic is the representation of component symbols and net connections between them. Nets are the traces on the board.

1. Which of the following has a Harvard architecture?
a) EDSAC b) MIPS c) PIC d) CSIRAC

2. Which of the following statements are true for von Neumann architecture?
a) shared bus between the program memory and data memory
b) separate bus between the program memory and data memory
c) external bus for program memory and data memory d) external bus for data memory only

3. Which company further developed the study of RISC architecture?
a) Intel b) Motorola c) university of berkeley d) MIPS

4. Princeton architecture is also known as
a) von Neumann architecture b) Harvard c) RISC d) CISC

5. Which of the following is serial access memory?
a) RAM b) Flash memory c) Buffers d) ROM

6. Which of the following memories has more speed in accessing data?
a) SRAM b) DRAM c) EPROM d) EEPROM

7. Which of the following provides stability to the multitasking system?
a) memory b) PRAM c) SRAM d) Memory partitioning

8. Which of the following are considered as inputs to the parallel ports?
a) LEDs b) switch c) alphanumeric display d) seven segmented display

9. Which of the following can be used as a chip select?
a) multifunction I/O port b) parallel port c) DMA port d) memory port

10. What does USART stand for?
a) universal asynchronous receiver transmitter b) unique asynchronous receiver transmitter

a) CPU, ROM, I/O ports, and timers b) RAM, ROM, I/O ports, and timers
c) CPU, RAM, I/O ports, and timers d) CPU, RAM, ROM, I/O ports, and timers

24. Why are solid-state relays advantageous over electromechanical relays?
a) they need less voltage to be energized b) they need more voltage to work
c) they need less current to be energized d) none of the mentioned

25. The total space for the data memory available in the 8-bit based microcontroller is?
a) FFFH b) FH c) FFFFH d) FFFFFFFH

26. What is the internal Vref of an Atmega32 series?
a) 1.1V b) 2.56V c) 5V d) all of the mentioned

27. Why are optoisolators normally used between the microcontroller and the I/O device?
a) to reduce the back emf b) to increase the current c) to increase the voltage d) to optimize the current

28. Why two pins for ground are available in ADC0804?
a) for controlling the ADCCND and ADCLND register of the controller
b) for controlling the analog and the digital pins of the controller
c) for both parts of the chip respectively d) for isolate analog and digital signal

29. Why Vref is set of ADC0808 to 2.56 V if analog input is connected to the Lsb?
a) to set the step size of the sampled input b) to set the ground for the chip
c) to provide supply to the chip d) all of the mentioned

Tick out the correct Answer

1. Flowers with both androecium and gynoecium are called

1. Bisexual flowers
2. Anther
3. Stamens
4. Unisexual flowers

2. The transfer of pollen from the anther to stigma is called

1. Pollination
2. Fertilization
3. Adoption
4. Diffusion

3. The fusion of female reproductive nucleus with the male reproductive nucleus is known as

1. Adoption
2. Excretion
3. Fertilization
4. Regeneration

4. The two nuclei at the end of the pollen tube are called

1. Tube nucleus and a generative nucleus
2. Sperm and ovum
3. Generative nucleus and stigma
4. Tube nucleus and sperm

5. Generative nucleus divides forming

1. 2 male nuclei
2. 3 male nuclei
3. 2 female nuclei
4. 3 female nuclei

6. Embryo sac is located inside the

1. Stigma
2. Ovule
3. Micropyle
4. Style

7. One nucleus of the pollen tube and secondary nucleus of the ovum grow into

1. Stigma
2. Endosperm
3. Anther
4. Stamen

8. The stalk of Datura flower at its base is known as

1. Pedicel
2. Corolla
3. Sepals
4. Thalamus

9. The male reproductive parts of a flower, the stamens, are collectively known as

1. Androecium
2. Filament
3. Anther
4. Gynoecium

10. The other name for gynoecium is

1. Pistil
2. Stigma
3. Androecium
4. Style

11. Functional megaspore in a flowering plant develops into

1. Endosperm
2. Ovule
3. Embryo-sac
4. Embryo

12. Which of the following is similar to autogamy, but requires pollinators?

1. Geitonogamy
2. Cleistogamy
3. Apogamy
4. Xenogamy

13. What is the function of the filiform apparatus?

1. Guide the entry of pollen tube
2. Recognize the suitable pollen at the stigma
3. Produce nectar
4. Stimulate division of the generative cell

14. A mass of nutritive material outside the embryo sac is called _____

1. Protoplasm

Bridge Course

Session 2022-2023

Department of Economics

The objective of bridge course is to act as a cushion to improve and orient the subject knowledge keeping in mind the students coming from different streams. This gives them an overview and acquaints them with the basics of the subject before the classes start in full swing. During this interaction of 6 to 8 hours with the faculty and their classmates, the students are equipped with the basic knowledge and the assurance needed to take on greater challenges in future.

With this objective in mind, the bridge course was organized by the Department of Economics, to help the students who are studying the paper for the first time. It was one week course which covered the basics and general concepts of Economics to enhance student's understanding towards the subject. Students participated enthusiastically and majority of the students felt that the course improved their basic understanding and will help in developing the interest in the subject during regular classes. Approximately 60 present of the students who had taken this course had not studied economics before and all of them had given very positive feedback that they would like to attend such courses even in future. The main purpose of the course was to bridge the gap between the students who had studied economics in their higher secondary and those who had not and also to revise certain concepts which the students need to revise. The course fulfilled its purpose well.

Place	Dept. of Mathematics
Organiser	Head, Dept. of Mathematics
Course Teacher	Miss.D.T.Pawar
Course for Class	F.Y.B.Sc
Nature	Academic
Syllabus	1.Basic concepts of Mathematics: Addition, Subtraction, Multiplication, Division 2.Introduction of Matrices: Types of Matrices,Adjoint of a Matrix, Cofactor of a Matrix 3. Differentiation: Rules & Examples 4.Set Theory: Types Of sets, Operations on sets, De-Morgan's Laws etc.
Objectives	1) To prepare students for the thought knowledge of the specific subjects 2)To develop interest in Mathematics subject 3) To develop scientific attitude towards basic sciences

Scanned with OKEN Scanner

	4) To make teaching-learning process smooth and student friendly
Brief information about course	Bridge course is essential for degree students as they have entered from general subject mathematics to specific subject mathematics. Though students learnt mathematics in 10+2 level, It is prepatory course with an academic curriculum that is offered to under graduate students as a means of preparing for the intellectual challenges of higher education.
Outcomes	1) Students have been familiar with basic of mathematics 2) It has proved fruitful to build confidence to the students 3) Bridge course develop interest in mathematics.
Feedback analysis	1) Student appreciated course content 2) Helpful to develop interest in mathematics.

Duration:

- The total duration of this Bridge Course is One Week
- There shall be a daily lecture followed by a multiple choice type Unit Test.

The Syllabus:

The syllabus for the Bridge Course in chemistry is:

- State of matter
- Chemical kinetics
- Thermodynamics
- Nature of chemical bond
- Hydrocarbon

Designed by:

Mr. S. D. Borse

Assistant lecturer, Department of Chemistry, Mr. S. D. Borse

A.S.C. College, Shirsondi, Tal-Malegaon (Nashik)

Approved by:

The Principal, Dr. R. B. Dhande, A.S.C.College Shirsondi,

Tal-Malegaon (Nashik)

Important Note for students:

Granting optional subjects will be finalized on the basis of the performance shown by the candidate in the Bridge Course Aptitude Test.

Documentary Evidences:

1. Course Reading Material

2. List of Admitted Students

3. Syllabus Contents (Teaching Plans)

4. Attendance List

5. Question Paper (Objective Type) (25 Questions, 1 Marks each)

Question Paper 2021-22

Day & Date - 21.10.2021 **Marks: 25** **Time- 10.00am to11.00am**

---

1) The process that does not occur of its own accord is called..... Process.
a) Non-spontaneous b) Spontaneous c) Isothermal d) adiabatic

2) S.I. unit of Energy is....
a) Erg b) Calories c) joule d) gram

3) Thermochemistry is the branch of physical chemistry which deals with the.....accompanying a chemical reaction."
a) Thermal changes b) heat changes
c) Enthalpy changes d) all of these

4) Alkaline earth metal contains..... .....valence electrons.
a) 1 b) 2 c) 3 d) 4

5) The shape of 's' orbital is....
a) Spherical shape b) Dumbbell shaped c) Triangular d) Square planar

6) Which of the following element has highest electronegativity?
a) Li
b) Mg
c) Be
d) F

7) Principle quantum number represents..."
a) Energy of electron b) Spin of electron
c) Orientation of orbitals d) Shape orbitals

8) Azimuthal quantum number represents... a) Size of the orbital
a) Size b) Shape c) Orientation d) Energy

9) Which of the following is not a periodic property?

a) Atomic size b) Ionization enthalpy c) Electron affinity d) Spectroscopic

10) A well stoppered thermos flask contains some ice cubes. This is an example of.

a) Closed system b) Open system

c) Isolated system d) Non thermodynamics system

11) The least random state of the water system is:

a) Ice b) liquid water c) steam d) randomness is same

12) If liquids A and B form an ideal solution

a) The entropy of mixing is zero

b) The free energy of mixing is zero

c) The free energy as well as the entropy of mixing are zero

d) The enthalpy of mixing is zero

13) When water is added to quick lime the reaction is

a) Explosive b) endothermic c) exothermic d) photochemical

14) The process that does not occur of its own accord is called- process.

a) Non-spontaneous b) spontaneous c) isothermal d) adiabatic

15) Hot reservoir represents.....

a) Sink b) source c) cold reservoir d) none of these

16) No machine has..... Efficiency.

a) 50 % b) 100% c) 10% d) 20%

17) Entropy of the universe tends towards.....

a) maximum b) minimum c) zero d)none of these

18) Sink represents.....reservoir.

a) Hot b) cold c) sink d) all of these

19) S.I unit of energy is

a) Erg b) calories c) joule d) gram

20) Entropy is a measure of energy of a system.

a) Unavailable b) available c) both a & b d) none of these

21) Gases which do not obey the gas laws at all temperature and pressures are Called.....

a) Ideal gases b) non-ideal gases c) perfect gases d) gases

22) P_C, V_C, and T_C are known as.....

a) Gas constants b) van der Waal's constants
c) Velocity constants d) critical constants.

23) The parameter Z used to compare deviations of gases from ideal behavior is called.....

a) Gas constant b) Zeeman effect
c) Critical constant d) compressibility factor

24) Ascertain temperature at which the product PV is constant over an appreciable range of pressure is known as.....

a) Absolute b) Kelvin c) Celsius d) Boyle

25) The expression, $PV= 1/3mNu^2$ is known as.....

a) Reduced equation b) Kinetic gas equation
c) Both a & b d) none of these

.....BEST OF LUCK.....

- There shall be a daily lecture followed by a multiple choice type Unit Test.

The Syllabus:

The syllabus for the Bridge Course in chemistry is:

- State of matter
- Chemical kinetics
- Thermodynamics
- Nature of chemical bond
- Hydrocarbon

Designed by:

Mr. S. D. Borse

Assistant lecturer, Department of Chemistry, Miss. J.B. Pawar

A.S.C. College, Shirsondi, Tal-Malegaon (Nashik)

Approved by:

The Principal, Dr. R. B. Dhande, A.S.C.College Shirsondi,

Tal-Malegaon (Nashik)

Important Note for students:

Granting optional subjects will be finalized on the basis of the performance shown by the candidate in the Bridge Course Aptitude Test.

Documentary Evidences:

1. Course Reading Material

2. List of Admitted Students

3. Syllabus Contents (Teaching Plans)

4. Attendance List

5. Question Paper (Objective Type) (25 Questions, 1 Marks each)

Question Paper 2022-23

Date - 10.10.2022 **Marks: 25** **Time- 10.00am to11.00am**

---

1) The process that does not occur of its own accord is called..... Process.
a) Non-spontaneous b) Spontaneous c) Isothermal d) adiabatic

2) S.I. unit of Energy is....
a) Erg b) Calories c) joule d) gram

3) Thermochemistry is the branch of physical chemistry which deals with the.....accompanying a chemical reaction."
a) Thermal changes b) heat changes
c) Enthalpy changes d) all of these

4) Alkaline earth metal contains..... ……valence electrons.
a) 1 b) 2 c) 3 d) 4

5) The shape of 's' orbital is....
a) Spherical shape b) Dumbbell shaped c) Triangular d) Square planar

6) Which of the following element has highest electronegativity?
a) Li
b) Mg
c) Be
d) F

7) Principle quantum number represents..."
a) Energy of electron b) Spin of electron
c) Orientation of orbitals d) Shape orbitals

8) Azimuthal quantum number represents... a) Size of the orbital
a) Size b) Shape c) Orientation d) Energy

9) Which of the following is not a periodic property?
a) Atomic size b) Ionization enthalpy c) Electron affinity d) Spectroscopic

10) A well stoppered thermos flask contains some ice cubes. This is an example of.

a) Closed system b) Open system
c) Isolated system d) Non thermodynamics system

11) The least random state of the water system is:
a) Ice b) liquid water c) steam d) randomness is same

12) If liquids A and B form an ideal solution
a) The entropy of mixing is zero

b) The free energy of mixing is zero

c) The free energy as well as the entropy of mixing are zero

d) The enthalpy of mixing is zero

13) When water is added to quick lime the reaction is

a) Explosive b) endothermic c) exothermic d) photochemical

14) The process that does not occur of its own accord is called- process.

a) Non-spontaneous b) spontaneous c) isothermal d) adiabatic

15) Hot reservoir represents.....

a) Sink b) source c) cold reservoir d) none of these

16) No machine has..... Efficiency.

a) 50 % b) 100% c) 10% d) 20%

17) Entropy of the universe tends towards.....
a) maximum b) minimum c) zero d)none of these

18) Sink represents.....reservoir.

a) Hot b) cold c) sink d) all of these

19) S.I unit of energy is

a) Erg b) calories c) joule d) gram

20) Entropy is a measure of energy of a system.

a) Unavailable b) available c) both a & b d) none of these

21) Gases which do not obey the gas laws at all temperature and pressures are Called.....

a) Ideal gases b) non-ideal gases c) perfect gases d) gases

22) P_C, V_C, and T_C are known as.....

a) Gas constants b) van der Waal's constants
c) Velocity constants d) critical constants.

23) The parameter Z used to compare deviations of gases from ideal behavior is called.....

a) Gas constant b) compressibility factor
c) Critical constant d) Zeeman Effect

24) Ascertain temperature at which the product PV is constant over an appreciable range of pressure is known as.....

a) Absolute b) Kelvin c) Celsius d) Boyle

25) The expression, $PV = 1/3mNu^2$ is known as.....

a) Reduced equation b) Kinetic gas equation
c) Both a & b d) none of these

.....BEST OF LUCK.....

विद्यार्थ्यांसाठी प्रश्नावली.

1. दीर्घकालीन फिलीप्सचा वक्र बेरोजगारीचा दर आणि भावफुगवटा यात खालीलपैकी कोणत्या परिस्थितील सममूल्यांकन दर्शवणार नाही?

- भावफुगवटयाच्या दरात जुळणी होत नाही
- भावफुगवटयाच्या दरात नेहमीच ऊर्ध्वगामी कल असतो
- **अनुकूलक (जुळणी होणाऱ्या) अपेक्षांना अनुसरून भावफुगवटयाच्या दरात जुळणी होते**
- भावफुगवटयाच्या व बेरोजगारी यांचे दर स्वतंत्र असतात

2. खालीलपैकी कोणत्या वस्तूची मागणी अधिक लवचीक असते?

- ज्या वस्तूला पर्यायी वस्तू नसतात
- **ज्या वस्तूला जवळचे पर्याय असतात**
- ज्या वस्तूवर उत्पन्नाचा थोडा भाग खर्च केला जातो
- ज्या वस्तूचा उपभोग लांबणीवर टाकता येत नाही

3. केन्सप्रणितक्रॉस प्रतिमानात स्थिरतेसाठी ही अट आवश्यक असते:

- सीमान्त उपभोग प्रवृत्ती एक हवी
- **सीमान्त उपभोग प्रवृत्ती एकापेक्षा कमी परंतु शून्यापेक्षा जास्त हवी**
- सीमान्त उपभोग प्रवृत्ती एकापेक्षा जास्त हवी
- सीमान्त उपभोग प्रवृत्ती अऋणात्मक असावी

4. जर वस्तूच्या उत्पादनात ऋण वाह्यता असतील तर खाजगी बाजार:

- **वस्तूच्या खूपच जास्त मात्रांचे उत्पादन खूपच कमी किंमतीला करतील**
- वस्तूच्या खूपच जास्त मात्रांचे उत्पादन खूपच जास्त किंमतीला करतील
- खूपच कमी मात्राचे उत्पादन खूपच जास्त किंमतीला करतील
- खूपच कमी मात्राचे उत्पादन खूपच कमी किंमतीला करतील

5. HDI ची मोजणी खालील बाबींच्या आधारे केली जाते:

(i) जन्मवेळची आयुर्मान अपेक्षा
(ii) दरडोई वास्तव स्थूल देशांतर्गत उत्पादन
(iii) भावफुगवटा निर्देशांक
(iv) नामित स्थूल देशांतर्गत उत्पादन योग्य उत्तर म्हणजे

- **(i) आणि (ii)**
- (ii) आणि (iii)

- (iii) आणि (iv)
- (iv)

6. सर्वसाधारणपणे मक्तेदारीमध्ये उत्पादित केलेल्या वस्तूची इतर वस्तू - सेवांच्या संदर्भातील छेदक लवचिकता ही:

- खूप जास्त असते
- मध्यम असते
- **खूप कमी असते**
- एक असते

7. मक्तेदारीतील उत्पादन खालीलपैकी कोणत्या परिस्थितीत कार्यक्षम असते?

- तृतीय प्रमाण मूल्यभेद
- व्दितीय प्रमाण मूल्यभेद
- **प्रथम प्रमाण मूल्यभेद**
- जेव्हा मूल्यभेद केला जात नाही

8. खालीलपैकी कोणत्या बाबतीत वृद्धी झाल्यास आर्थिक अभिवृद्धी होते?

- उपभोग प्रवृत्ती
- आयात करण्याची प्रवृत्ती
- निर्यात करण्याची प्रवृत्ती
- **बचत करण्याची प्रवृत्ती**

9. सनातन तौलनिक लाभ सिद्धान्त यावर आधारित आहे:

- **मूल्याचा श्रम सिद्धान्त**
- घटत्या प्रत्यायांचा नियम
- वाढत्या प्रत्यायांचा सिद्धांत
- प्रशुल्क

10. निगम कराचा आधार हा असतो

- कंपनीची एकूण उलाढाल
- लाभांशा वितरणानंतर शिल्लक रहिलेला नफा
- **लाभांशा वितरणाआधीचा नफा**
- कंपनीने समुपयोजित केलेले भांडवले

Bridge Course

Session 2022-2023

Department of Economics

The objective of bridge course is to act as a cushion to improve and orient the subject knowledge keeping in mind the students coming from different streams. This gives them an overview and acquaints them with the basics of the subject before the classes start in full swing. During this interaction of 6 to 8 hours with the faculty and their classmates, the students are equipped with the basic knowledge and the assurance needed to take on greater challenges in future.

With this objective in mind, the bridge course was organized by the Department of Economics, to help the students who are studying the paper for the first time. It was one week course which covered the basics and general concepts of Economics to enhance student's understanding towards the subject. Students participated enthusiastically and majority of the students felt that the course improved their basic understanding and will help in developing the interest in the subject during regular classes. Approximately 60 present of the students who had taken this course had not studied economics before and all of them had given very positive feedback that they would like to attend such courses even in future. The main purpose of the course was to bridge the gap between the students who had studied economics in their higher secondary and those who had not and also to revise certain concepts which the students need to revise. The course fulfilled its purpose well.

Criterion-II Teaching Learning and Evaluation

(Metric 2.3.1 Students' Centric Methods and ICT Enabled Teaching)

The Students' Centric Methods:

Faculty members that are particularly concerned with imparting their knowledge to students utilise a variety of pedagogies in order to improve the quality of teaching and learning and make it more student-centric. The faculties heavily utilise student-centric teaching-learning approaches, such as problem-solving, experiential learning, and doubt-solving sessions, in addition to traditional classroom lectures. In addition to conventional teaching techniques, they employ ICT- enabled tools. The more efficient method of experiential learning is through experimentation. It mostly includes active engagement in both curricular and extracurricular activities, on-site experiences, and laboratory investigations constructed around theoretical principles. College departments organised field trips, educational tours, environmental study tours, field visits, and study tours to various locations and industries for experiential and hands-on learning. Because of this, in addition to the standard laboratory coursework, the departments provide a variety of practical experimental events, such as exhibitions that feature demonstrations and instruction using advanced equipment. For an efficient TLP, some departments additionally used pedagogical techniques based on research. Through collaborative problem-solving and idea- and information-sharing, students are encouraged to think critically and learn from one another. These techniques improve students' experiences and skills for learning. Group projects, mentorship programmes, group conversations, and student-led academic event planning are some of the initiatives the college uses to encourage involvement in learning in light of this. Additional instances include employing Power Point presentations in student seminars, coding, web portal design, poster presentations, guiding talks, and poster presentations. These activities all add excitement and improve the learning experience. One way to encourage active engagement from slow learners during lectures is to have a conversation about a particular topic. The ability to solve problems based on investigation is developed and demonstrated through the Avishkar and Innovation competitions. Certain subjects in the final-year undergraduate curriculum need projects. Students are assisted in determining and choosing the project's problem. Following the literature study, the student drafts project reports, which their supervisor then approves. Virtual classrooms or platforms such as Google Meet and Zoom were used for teaching and learning during the COVID-19 epidemic. The college was limited as a result of the national and state-wide shutdown. Nonetheless, HEI used ICT resources and a variety of online platforms to arrange a range of online events. The electronic resources are available to teachers and students. For e-learning domain lectures that have been recorded by college staff and others by Google Classrooms, YouTube channels were provided to the students. Online tests, webinars, guidance sessions, and training and orientation courses aid in the development of their learning experiences. In order to improve students' learning experiences, faculties also offer remedial and bridging courses. Language lab facilities are available through the department of languages, allowing students to learn for themselves and hone their pronunciation, communication, and independent learning skills while

also deepening their understanding of the subject matter. As part of the CBCS, students are continuously evaluated through assignments, open-book tests, seminar presentations, and test tutorials. It gives students the chance to participate in a variety of academic programmes and become more organised, both of which assist in improving their self-confidence. Experience learning is incorporated into the NSS Special Winter Camp through a variety of activities like awareness rallies, Shramdan, and village beautification. Surveying is a component of the Environment Awareness course in the second year of all streams, and it has been demonstrated to enhance environmental awareness. Staff encouraged the students to enrol in various courses on NPTEL, MOOC, SWAYAM, and other online certificate courses.

ICT Enabled Teaching:

All the departments utilize the ICT enabled tools and technologies for the process of teaching and learning. It was extensively used in the Covid-19 pandemic situation to keep in touch with the students and to ensure the continuity of the teaching and learning process. The faculties formed various Whats App Groups which are used to directly communicate the important knowledge with the students. They are employed to share notes of various topics and critical terms. They also conducted online lectures by making use of Google Meet, and Zoom Platforms to when almost entire world was shut due to lockdown. The faculties formed Google Classrooms to share the contents in the syllabus making them have an easy access when needed.

The department of Science and Computer Science and English make use of Power Point Presentation for teaching to avoid monotony. The most of the faculties shares various kinds of notes and learning contents with the students by making the optimal use of social media.

Mentor's Report

I was allotted with 66 mentees by the Mentor Mentee Cell of the college in the year 2021-22. As per the policy of the Cell, the allotted mentees were guided during the interactions throughout the academic year. Regular visits to local mentees were made and interactions were carried out with the parents. During these visits, the details of any major absence from college were discussed with the mentees in the presence of the parents. In addition, the academic progress of the learner was discussed. These interactions enabled to recognize the socio-economic background of the mentees. Further, regular follow up was taken throughout the session 2021-22.

The outstation mentees were regularly in touch telephonically as well as consistent interactions were made with them on campus. They were also guided about a variety of issues related to their progress, as and when required. They were informed about the services and support facilities available in the college.

During these interactions with the mentees allotted to me and their parents, the following issues were shared by the mentees and it has been resolved with due involvement of the college administration. The issue is as follow-

Sr.No	Issue Raised	Issue Resolve
1	Provision of additional notes and study material as well as copies of previous examination papers.	This issue has been resolved. The students were provided additional notes, and copies of previous examination papers.
2	Cleanliness of girls washroom	This issue was brought to the notice of the Hon'ble principal and the principal not only assured but strictly ordered to maintain the cleanliness of girls washroom.
3	Organised competitive exam facility for students.	Planning of Improvement in competitive exam facility for students.

Name of Mentor (Teacher):-Mr.Nilesh Sonje
Number of Mentee Allotted:-57

The Mentor Mentee Cell of the college has allotted me **57** mentees in the academic year 2021-2022. According to the policy of the Cell counselling and visits were made also the interaction between parents, students and mentor successfully done in the session. It was a great idea to visits the mentees houses, parents satisfactorily and openly discussed with us. They also appreciate that the collage is taking extra and useful steps towards the well being of there wards.

The students who were outsiders got contacted telephonically. Interacted on campus throughout the year and guided for their academic progress and for the competitive examinations. The meeting with the students' parents of local students were carried out twice in a year and discussed with the overall development of ward and his academic progress. They were also guided in groups during their free time after the teaching schedule. They were given some sample question papers and ready-made notes to make them feel comfortable in facing the theory examination.

I discussed with parents on curricular and extracurricular activities, counselling on various girls issues with them Telephonic talks and on campus discussions the following issues were raised by a few of them and those issues have been sorted out with due involvement of the administration. The issues were as follows-

Sr.No	Issue Raised	Issue Resolve
1	Maintenance of vehicle stand for student is necessary	The demand was discussed with principal and principal successfully taken an action on it.

Mentor's Report

I was allotted with mentees by the Mentor Mentee Cell of the college in the year 2021-2022.. As per the policy of the Cell, the allotted mentees were guided during the interactions throughout the academic year. Regular visits to local mentees were made and interactions were carried out with the parents. During these visits, the details of any major absence from college were discussed with the mentees in the presence of the parents. In addition, the academic progress of the learner was discussed. These interactions enabled to recognize the socio- economic background of the mentees. Further, regular follow up was taken throughout the session 2021-2022.

The outstation mentees were regularly in touch telephonically as well as consistent interactions were made with them on campus. They were also guided about a variety of issues related to their progress, as and when required. They were informed about the services and college. Support facilities available in the college.

During these interactions with the mentees allotted to me and their parents, the following issues were shared by the mentees and it has been resolved with due involvement of the college administration. The issue is as follow-

Sr.No	Issue Raised	Issue Resolve
1	High speed internet facility be provide by the college	This Issue has been resolved. The college has installed high speed internet facility for the student to use online resources.

Mentor's Report

I was allotted with 14 mentees by the Mentor Mentee Cell of the college in the year 2021-2022. As per the policy of the Cell, the allotted mentees were guided during the interactions throughout the academic year. Regular visits to local mentees were made and interactions were carried out with the parents. During these visits, the details of any major absence from college were discussed with the mentees in the presence of the parents. In addition, the academic progress of the learner was discussed. These interactions enabled to recognize the socio- economic background of the mentees. Further, regular follow up was taken throughout the session 2021-2022.

The outstation mentees were regularly in touch telephonically as well as consistent interactions were made with them on campus. They were also guided about a variety of issues related to their progress, as and when required. They were informed about the services and college. Support facilities available in the college.

During these interactions with the mentees allotted to me and their parents, the following issues were shared by the mentees and it has been resolved with due involvement of the college administration. The issue is as follow-

Mentor's Report

I was shouldered the mentorship of 48 mentees by the Mentor Mentee Cell of the college in the academic year 2022-23. As per the policy of the Cell, throughout the academic year, the allotted mentees were guided during the interactions. In addition, visits to local mentees were made and interactions were carried out with the parents. During discussions, the reasons of absenteeism were discussed with the mentees in the presence of the parents. Further, issues related to the academic progress of the learner were discussed. Such interactions facilitated to understand the socio-economic background of the mentees. In addition, sincere follow up was taken throughout the year.

The outstation students were regularly contacted telephonically and regular contacts were made inside the college campus throughout the year, too. They were also guided about a variety of issues related to their progress, as and when required. They were given notes, study material and previous examination question papers to raise their confidence for theory examination. They were informed about the services and support facilities available in the institution. During these diverse interactions with the mentees allotted to me, the following issues were shared by the mentees and these issues have been resolved with due involvement of the college administration. The issues were as follows-

Mentor's Report

The Mentor Mentee Cell of the college has allotted 52 mentees to me in the academic year 2021-22. As per the policy of the cell the mentors visited the houses of the local mentees and interacted with their parents regarding the issues like academic progress of the mentee or any other. During the interaction, the causes of absentee, lacunas in studies were discussed in presence of parents and the mentees were guided during the interactions. Parents shared their experiences and expectations from wards during the interaction.

The students who were outsiders got contacted telephonically, and the parents of those mentees were met personally when they came to the town to meet their ward. In the free time, these students were called either in groups or alone to discuss the issues such as progress in academics, preparation of examination or examination phobia, interest in sports and it's availability in the campus. Such students were interacted and guided not only for curricular but also for co-curricular and extracurricular activities. The issues like fear for examination was solved by providing the notes and the pattern of University question papers so that they can feel comfortable.

This system has proven very helpful to explore the realistic difficulties of the students in the campus. During the interaction, some issues were raised by the parents and those issues have been sorted out with due involvement of the administration. The issues were as follows.

Sr.No	Issue Raised	Issue Resolve
1	Guidance for the Competitive examination	This issue was brought to the notice of the Hon'ble Principal and the mentor made the parents as well as mentee aware about the college already has a separate MPSC Cell to cater the needs of the students preparing for the Competitive examinations. The cell works hard by organizing Guest works hard by organizing Guest lectures, sharing the videos, organizing the book fairs etc. The mentor added that the college has rich Library resources for all the aspirants.

SUBJECT: PERMISSION FOR INDUSTRIAL VISIT...

Respected Sir,

On behalf of the **VADP's, Arts, Science and Commerce College, Shirsondi, Tal- Malegaon, Dist-Nashik.** I am writing this letter to you for getting your permission to conduct an industrial tour/visit at your industry. Our college affiliated under Savitribai Phule Pune University, Pune. As per the curriculum part of Savitribai Phule Pune University, the industrial visit is required for student to earn credits.

We decide to give some practical education to the students about the industrial procedure and its facility. For that, your firm is the best option to carry on such visit. In that case, we need your support. The 10 students will be the part of the trip accompanied by 02 teachers. We just take a day for this industrial trip. Please give us date and time for the same.

Please do needful help.

Thanking you.

INDUSTRIAL VISIT REPORT

Academic Year- 2022-23 **Date: 11/04/2023**

A complete report on industrial visit organized by Department of Electronics Science ACS college, Shirsondi for the students of T.Y. B. Sc [SEM- VI] in order to get the practical knowledge about "Electronics applications, advanced technology used in manufacture of sophisticated tools using embedded system platforms and Artificial learning as well as some practical education to the students about the industrial procedure and its facility"

AIM of Industrial Visit:

Industrial visit is considered as one of the tactical methods of teaching. The main reason behind this- it lets student to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim industrial visit is to provide an exposure to students about practical working environment .They also provide students a good opportunity to gain full awareness about industrial practices. Through industrial visit students get awareness about new technologies. Technology development is a main factor, about which a students should have a good knowledge. Visiting different companies actually help students to build a good relationship with those companies. We know building relationship with companies always will always help to gain a good job in future. After visiting an industry students can gain a combined knowledge about both theory and practical. Students will be more concerned about earning a job after having an industrial visit

1. DETAILS OF JOURNEY:

Department of Electronics Science had organized an industrial visit on 11 April, 2023 to Nashik for the students of T. Y. B. Sc. During this journey we were visited to three companies namely Epitrans Switchgear Pvt. Ltd., Cognifront Pvt. Ltd., and Techeco Waste Management LLP located at Ambad, Panchavati and Dhakambe respectively. We also visited one pathology lab situated at Panchavati, Nashik. The visit was organized by HOD of Electronics Science department Dr. Umesh J. Tupe & Miss. Mohini P. Patil were the co-ordinators Faculty for the industrial visit. We started travelling from the college campus at 07:30 am via our college private car. Totally 07 students along with 2 coordinators faculty were there in the journey.

2. COMPANIES PROFILE

1. Epitrans Switchgear Private Limited

Address: Plot No. H-142, MIDC, Ambad, Nashik - 422010, Maharashtra, India.

Epitrans Switchgear Private Limited is a promising manufacturer of Outdoor Oil Cooled Current Transformer, Indoor Gun Type Potential Transformer & Outdoor Dry Type Resin Cast Potential Transformer, etc. This giant company is making use of secured road connectivity for shipping class-leading transformers to distant and nearby locations.

Production Excellence

Transformers are indispensable in the modern world. The quality-leading device relies on magnetic field action for an attempt to alter ac electric energy from one voltage level to the other voltage level. We are one of the many companies that is manufacturing transformers in varied configurations for satisfying needs of the customers. Epitrans Switchgear Private Limited works as a transformer manufacturer & service provider in the market, supplying budget-friendly solutions. This company owns an epoxy plant that holds capacity to bring out 550 products in a month. The process of casting is carried out making fine utilization of a single process in a vacuum. The oil-cooled product line has capacity such as 33kv-250 units and 11kv-700 units per month.

2. Techeco Waste Management LLP:

Address: Gut no. 155 B/2, Village: Dhakambe, Tal: Dindori, Dist: Nashik Maharashtra, India.

Techeco was founded in 2018 with a strong focus on bringing waste management infrastructure, recycling and upcycling services across India. Techeco envisions a sustainable future that is inclusive, responsible and climate-conscious. Recycling raw materials from end-of-life electronics is the most effective solution to the growing e-waste problem. When depleted batteries are tossed into the trash, they end up in landfills where they decay and leak.

The following work is done by Techeco.

3. Cognifront:

Address: #1, Trishala, Ramnagar, Behind Mahalakshmi Theatre, Panchawati, Nashik 422003, Maharashtra, Bharat (India).

Cognifront delivers industrial technology solutions to customers that include BOSCH, CEAT, and AutoDESK. Cognifront also develops excellent eTeaching Tools used by IIT Madras, IIT Guwahati, Don Bosco University, University of Oslo in Norway, IIT Bombay, IIT Patna, University of Nairobi in Kenya, NIT Surat and such 100+ institutions in India and abroad. Cognifront's innovative low cost IoT kit is used by 20+ institutions. Cognifront also offers certificate courses in Machine Learning, Deep Learning, IoT that are highly recognized in industry and have placed more than 150 students in academic year 2019-2022 at top companies that include Infosys, Cognizant, Zensar, Deloitte and TCS (Tata Consultancy Services)

Website: https://www.cognifront.com/.

4. GROUP OBSERVATION:

This Industrial visit is very helpful in our future practical Life & bring a positive change in our thinking & practical behavior regarding Education & specializing our technical skills.

- Got practical knowledge about the advancement in technology using electronics.
- Use of programming in field of electronics engineering or real life applications.
- Information about different parts & use of transformers with multiple manufacturing tools.
- Need of –waste for sustain development of ecology.
- Different types of machines available for recycles of e waste
- Management of manpower in the industry
- Information of different methodologies like machine learning, artificial intelligence, Internet on things, deep learning used in many areas.

5. Photos of Visit:

1. Cognifront:
